ENDNOTES

- Crosswind Assist can engage automatically when sensing dangerous wind gusts at highway speeds exceeding 50 mph. Performance is limited by wind severity and available traction, which snow, ice, and other conditions can affect. Always drive carefully, consistent with conditions.
- No system, regardless of how advanced, can overcome the laws of physics or correct careless driving. Please always wear your seat belt. Performance is limited by available traction, which snow, ice, and other conditions can affect. Always drive carefully, consistent with conditions. Best performance in snow is obtained with winter tires.
- Driving while drowsy or distracted is dangerous and must be avoided. ATTENTION ASSIST® may be insufficient to alert a fatigued or distracted driver, and cannot be relied on to avoid an accident or serious injury.
- 4. Warning: the forces of a deploying airbag can cause serious or fatal injuries to a child under age 13. The safest seating position for your child is in a rear seat, belted into an appropriate, properly installed child seat, or correctly wearing a seat belt if too large for a child seat. See Operator's Manual for additional warnings and information on airbags, seat belts, and child seats.
- 5. Blind Spot Assist may not be sufficient to avoid all accidents involving vehicles in your blind spot and does not estimate the speed of approaching vehicles. It should not be used as a sole substitute for driver awareness and checking of surrounding traffic conditions.
- Lane Keeping Assist may be insufficient to alert a fatigued or distracted driver of lane drift and cannot be relied on to avoid an accident or serious injury.
- 7. Active Brake Assist may not be sufficient to avoid an accident. It does not react to certain stationary objects, nor recognize or predict the curvature and/or lane layout of the road or every movement of vehicles ahead. It is the driver's responsibility at all times to be attentive to traffic and road conditions, and to provide the steering, braking, and other driving inputs necessary to retain control of the vehicle. Drivers are cautioned not to wait for the system's alerts before braking, as that may not afford sufficient time and distance to brake safely. See Operator's Manual for system's operating speeds and additional information and warnings.
- Rearview camera does not audibly notify driver of nearby objects and is not a substitute for actively checking around the vehicle for any obstacles or people. Images displayed may be limited by camera field of view, weather, lighting conditions, and the presence of dirt, ice, or snow on the camera.
- 9. Active Distance Assist DISTRONIC[®] is no substitute for active driving involvement. It does not adapt cruising speed in response to stationary objects, nor does it predict the curvature and lane layout of the road ahead or the movement of vehicles ahead. It is the driver's responsibility at all times to be attentive to traffic and road conditions, and to provide the steering, braking, and other driving inputs necessary to retain control of the vehicle. Drivers are cautioned not to wait for the system's alerts before braking, as that may not afford sufficient time and distance to brake safely. Braking effectiveness also depends on proper brake maintenance, and tire and road conditions. See Operator's Manual for system's operating speeds and additional information and warnings.
- 10. Driver is responsible for monitoring fluid levels and tire pressure between service visits. See Maintenance Booklet for details.
- 11. There are numerous legal requirements concerning the towing of a trailer, e.g., speed restrictions. Many states require a separate functional braking system for your trailer once a certain weight limit is exceeded. For reasons of safety, it is recommended that all trailers use a separate functional braking system. Make sure your vehicle/trailer combination complies with local laws. This not only means where you live, but also anywhere you are driving to. Information on this can be obtained from the police and local authorities. Observe the following when towing a trailer: practice driving around bends, stopping, and backing up at a place where there is no traffic.
- 12. Based on 61 sheets of 1/2-inch thick 4' x 8' sheets of lightweight drywall.
- 13. When the Emergency Call System is triggered, the following data are automatically transmitted: vehicle identification number, GPS position, direction of travel, time of the emergency call, language setting, and number of occupants in the cab. The Emergency Call System is activated from the moment the vehicle is delivered to the customer following a sale. No separate terms of use have to be accepted. The Communication Module for Digital Services and the Emergency Call byttom are necessary for use of the Emergency Call System service. The availability of the service in addition to the integrated Communication Module for Digital Services (LTE) depends on the network coverage of the mobile network provider. The Communication Module for Digital Services (LTE) is not available in the U.S. Virgin Islands or Puerto Rico.
- 14. Models shown may include options/packages not standard on a Metris. Mercedes me connect is generally available in the U.S. with the new Metris equipped with a Communication Module (LTE). Contact an authorized Mercedes-Benz Vans dealership for more information. Specifications are subject to change. Services require vehicle cellular connectivity and availability of vehicle GPS signal. MBUSA reserves the right to change or discontinue Mercedes me connect services at any time without prior notification or incurring any future obligation. See Terms of Use for the Mercedes me connect services at https://www.mbusa.com/en/legal-notices/connected-vehicle.
- 15. The Remote Control function via the Mercedes me connect App makes it possible for you to view the status of the doors. The driver is also able to unlock the vehicle using a code via the Mercedes me connect App.
- 16. The available data can vary according to the vehicle model. The tire pressure can only be shown on certain model configurations.

- 17. Using the Mercedes me connect App while driving might distract you from traffic conditions. This could cause you to lose control of the vehicle, which could result in an increased risk of endangering yourself and others, including the risk of accidents, personal injuries, and death. In order to prevent distracted driving, the use of the Mercedes me connect App is not permitted while operating a motor vehicle. Please follow all applicable federal, state, and local laws and restrictions, and observe the legal requirements of the country in which you are currently located.
- 18. The availability of services in addition to the integrated Communication Module for Digital Services (LTE) depends on the network coverage of the mobile network provider. The Communication Module for Digital Services (LTE) is not available in the U.S. Virgin Islands or Puerto Rico. The Communication Module for Digital Services (LTE) is optionally equipped in the Metris and is necessary to make use of *Mercedes me connect*. The availability of certain features may be impacted at the current time.
- 19. ExpertSOLUTIONS program vehicles are custom, special-order-only vehicles modified by the ExpertSOLUTIONS provider of your choice. Although the MBUSA warranty does not apply to the modifications, separate warranties offered by the ExpertSOLUTIONS provider may apply. Details are available from your local dealer.
- 20. By using the Accident and Breakdown Management service, the vehicle data and location are collected. Accident and Breakdown Management is only available in conjunction with the Emergency Call System. The Communication Module for Digital Services (LTE) is required to use the Accident and Breakdown Management service.
- 21. Please see your dealer. Compare the estimated mpg to the EPA estimated mpg rating of other vehicles. Please see www.fueleconomy.gov for details. You may get different mileage depending on how fast you drive, weather conditions, and trip length. Your actual combined mileage will probably be less than the combined estimate. Please be advised that 91 Octane premium gasoline was used for fuel economy testing and fuel economy certification.
- 22. The Mercedes-Benz Vans Roadside Assistance Program is available for vehicles covered under warranty and includes such services as towing, jump-start in the event of a dead battery, and assistance with the installation of a spare tire. Service charges apply for out-of-warranty vehicles.
- 23. Unsecured cargo can become hazardous in a collision. Always secure cargo.
- 24. Apple CarPlay[®] is a product of Apple Inc. Android[™] Auto is a product of Google Inc. Device and app providers' terms and privacy statements apply. Requires connected compatible device and data plan. Apps, content, and features are selected solely by their providers. Connection to apps and streaming services may be limited by the device's network connection. Data usage is routed through device and subject to fees, charges, and restrictions in user's wireless plan. Vehicle's factory audio/information interface, including COMAND[®] navigation, may not be used simultaneously with Apple CarPlay[®] or Android[™] Auto is in use, the steering-wheel voice control button accesses Sin[®] or Google voice recognition software for voice commands.
- 25. Update times, content, and installation times can vary. These are activated when the vehicle is delivered. Updates to the Communication Module (LTE) are automatic, as otherwise certain applications might no longer work.

MEASURED BY **RESULTS**

METRIS PASSENGER 126" WB

When it comes to working efficiently, the right size for the job works better. From wheelbase length options in the Cargo Van to seating configurations in the Passenger Van, Metris is built to meet your specific needs. Factor in standard safety features like Crosswind Assist¹, Load-Adaptive Electronic Stability Program (ESP®)², and ATTENTION ASSIST^{®3} and you have what it takes to measure your success not by size, but by jobs completed.

Getting the job done is about staying focused. Our groundbreaking safety innovations deliver an extra level of protection for your cargo and passengers, and give you one less thing to think about.

Standard on all Metris Vans, Crosswind Assist¹ can help you stabilize your van in gusting crosswinds, while standard front, thorax, and window airbags⁴ help keep you protected. Plus, we're the only van in the segment featuring standard Load-Adaptive Electronic Stability Program (ESP®)? ATTENTION ASSIST®, and Headlamp Assist. Factor in available Blind Spot Assist⁵ Lane Keeping Assist⁶ Active Brake Assist⁷ and Active Distance Assist DISTRONIC[®], and it will be easy to keep your mind on the job knowing that your van is helping you stay safe.

STANDARD HIGHLIGHTS

CROSSWIND ASSIST

Crosswind Assist¹ helps you stabilize your van and boosts safety in strong, gusting crosswinds. This standard feature helps you ensure that your vehicle remains in its lane at highway speeds.

ATTENTION ASSIST^{®3}

ATTENTION ASSIST^{® 3} helps prevent drowsy driving by monitoring your driving patterns and providing an early warning in case fatigue is detected.

DRIVER AND PASSENGER AIRBAGS⁴

The driver and passenger front, thorax, and window airbags⁴ help protect you and your passengers in the event of a collision. Passenger Vans are also equipped with rear curtain airbags⁴.

SAFETY

We thought about safety, so you can think about work.

LOAD-ADAPTIVE ELECTRONIC STABILITY PROGRAM (ESP®)²

This dynamic handling system actively intervenes to help keep the van firmly under control and safe by automatically braking individual wheels and reducing engine power to help stabilize the vehicle if wheelspin, understeer, or oversteer is detected.

REARVIEW CAMERA[®]

The visual parking aid is activated when the Reverse gear is selected, giving you a view of what's going on behind you as well as providing overlays with which to guide you.

RESCUE ASSISTSM

With Rescue AssistSM first responders to an accident can scan a QR code in a Mercedes-Benz Van to quickly see where batteries, airbags, and other structural elements are located in order to safely perform the rescue.

HEADLAMP ASSIST

Automatic Headlamp Assist is a driving aid and convenience system, which switches on the exterior lighting when the light sensor detects low ambient light levels and off when detected light levels are high.

OPTIONAL HIGHLIGHTS

LANE KEEPING ASSIST⁶

Lane Keeping Assist⁶ can provide you with visual and audible warnings if your van leaves its lane unintentionally. A camera in the windshield monitors the road ahead and helps detect when you may have veered away from lane markings.

ACTIVE BRAKE ASSIST⁷

This advanced system senses the likelihood of a collision with a vehicle ahead and sends both a visual and audible warning, followed by initiating autonomous braking.

ACTIVE DISTANCE ASSIST DISTRONIC®9

Upon activation, this intelligent cruise control system can sense traffic conditions and actively control your speed to help you keep a safe distance.

BLIND SPOT ASSIST⁵ Using radar sensors to monitor approaching vehicles

on multilane highways, this system can detect vehicles in your blind spot, and alert you visually and audibly.

Sophisticated technology. Old-school grunt.

All the cargo volume in the world doesn't mean a thing if your van can only crawl under the weight of a heavy load. The Metris drivetrain is specifically designed to accelerate under these conditions – and save you money along the way.

The Metris is equipped with a 2.0L 4-cylinder turbocharged gasoline engine that produces substantial torque at low rpms. The combination of high torque and horsepower provides impressive performance throughout the operating range.

2.0L 4-CYLINDER TURBOCHARGED DIRECT INJECTION GASOLINE ENGINE WITH 9G-TRONIC, 9-SPEED AUTOMATIC TRANSMISSION

PERFORMANCE

MERCEDES-BENZ METRIS

Turbocharged Direct Injection gasoline engine with fast-acting piezo injectors.

Displacement: 1,991 cc

208 hp @ 5,500 rpm

Rated torque: 258 lb-ft @ 1,250-4,000 rpm

Tank capacity: 18.49 gallons

Battery: 12V/92Ah

Alternator efficiency management

Estimated combined EPA rating: 21 mpg (Cargo), 19 mpg (Passenger)²¹

"The Metris is quiet and feels competent around town and on the freeway, accelerating easily in and out of traffic."

Los Angeles Times

We're in business to help your business.

Minimizing downtime is crucial for your business. With its award-winning residual value, the Metris keeps your total cost of operation low and your productivity high. If you spend less time and money on maintenance and more time on the road, your whole company will run more smoothly.

MERCEDES-BENZ METRIS

Metris is the winner of the 2019 ALG Residual Value Award

9G-TRONIC, 9-Speed Automatic Transmission

Refined for maximum efficiency and unmatched comfort, this quick-shifting 9-speed automatic transmission delivers better fuel economy²; reduced noise, and longer service life.

1 5 0 0 0

Efficient Gasoline Engine

A 208 hp 2.0L 4-cylinder turbocharged Direct Injection gasoline engine gets you up and moving quickly. At an estimated combined EPA rating of 21 mpg for Cargo and 19 mpg for Passenger models²¹, the mid-size Metris offers fuel consumption comparable to that of a small-size van.

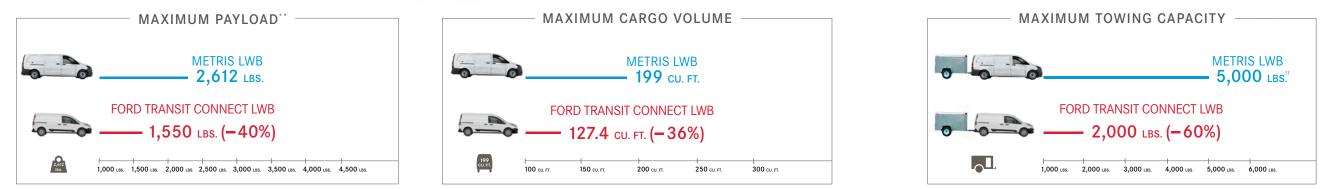

Service Interval¹⁰ With an impressive se to 15,000 miles,¹⁰ your

With an impressive service interval of up to 15,000 miles,¹⁰ your van will spend less time in the shop and more time on the job.

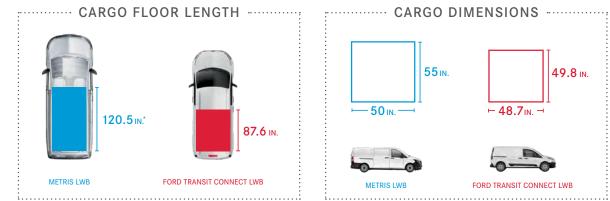

Up to a 15,000-Mile

ONLY THE METRIS STACKS UP.

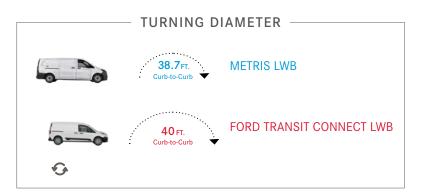

Based on publicly available vehicle specifications for the 2022 Ford Transit Connect LWB available at time of printing. "Maximum payload available when vehicle is properly equipped.

Works like a large van.

Metris delivers large-van capabilities but lets you maneuver city streets with a tight turning diameter, and park in a home garage. Plus, the 4-cylinder engine, 9-speed transmission, up to a 15,000-mile service interval¹⁰, and an estimated combined EPA rating of 21 mpg²¹ will maximize cost efficiency.

METRIS CARGO

THE RIGHT SIZE

With its superior payload, the mid-size Metris can handle heavier jobs than compact vans, yet still fits in industrial and home garages.

199 CUBIC FEET OF CARGO VOLUME

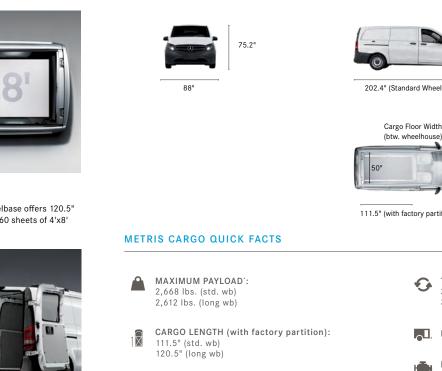

If you're looking for more space, the Metris long wheelbase offers 120.5" of cargo length. That's spacious enough to stow over 60 sheets of 4'x8' drywall¹² with room to spare.

REAR DOOR OPTIONS

Choose between standard 270° opening rear doors, 180° rear doors, or an optional lift-up tailgate.

*Based on a comparison of similarly sized and equipped commercial vans. Two wheelbases, more possibilities.

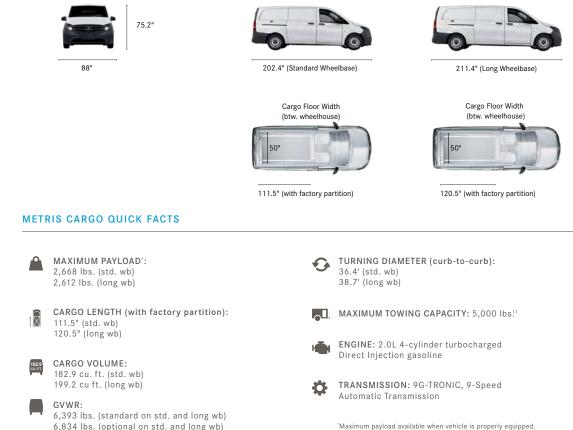

hauling opportunities with a total of 199.2 cu. ft.

No wasted space.

SPECIFICATIONS

6,834 lbs. (optional on std. and long wb)

All measurements in inches. All width measurements include mirrors. See page 27 for a complete listing of models and specifications.

Wasted space is wasted money. That's why virtually every inch of cargo space in the Metris Cargo Van is usable. It's all about making smart use of what you have-and having the right size with which to work. With a Best-in-Class turning diameter* and a powerful, cost-efficient drivetrain, the Metris doesn't waste any effort getting to the job. You'll feel safe along the way with advanced features like Crosswind Assist, Load-Adaptive Electronic Stability Program (ESP®); and ATTENTION ASSIST.^{®3} When you need to get more out of your cargo van, choose the one that delivers efficiency, along

The Metris lets you choose the size you need by offering two wheelbase lengths. The standard length gives you 182.9 cu. ft. of cargo volume, while the long wheelbase option adds 9" of cargo length and 16 cu. ft. of volume, giving you even more

with a low total cost of operation and a Best-in-Class payload cargo capacity.*

15

METRIS PASSENGER

AIRBAGS⁴

Driver and passenger front airbags,⁴ driver and front passenger side thorax airbags,⁴ and window curtain airbags⁴ throughout help protect every occupant.

ELECTRIC SLIDING DOORS (OPTIONAL)

Open or close the sliding door with the push of a button, for extra convenience.

SEATING CAPACITY

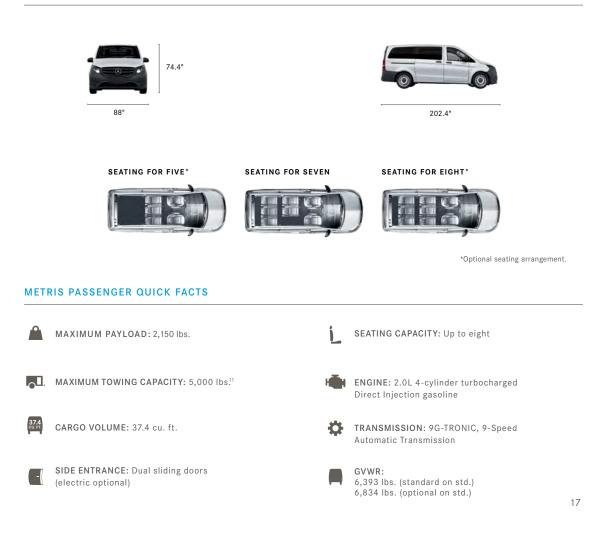

With three available seating configurations, you can carry up to eight people. 39.6" of headroom and plenty of legroom assure that your passengers won't just get there-they'll get there comfortably.

Treat passengers like you're one of them.

Whether you're riding or driving, it's all about how you feel in the vehicle. Take the Metris Passenger Van. It's just the right size to seat up to eight people comfortably and gives you the flexibility of three seating configurations. Add in optional features like electric sliding doors, and your passengers will have even more reasons to enjoy their journey – and you'll certainly enjoy the low cost of operation. Our groundbreaking safety innovations deliver an extra level of protection for you and your passengers, giving you one less thing to think about. Put your passengers first with the Metris Passenger Van.

SPECIFICATIONS

All measurements in inches. All width measurements include mirrors. See page 28 for a complete listing of models and specifications.

Your world, at your fingertips.

Stay connected wherever you go with the Metris's multitude of sophisticated infotainment options, including USB ports, Apple CarPlay[®]/Android[™] Auto²⁴, and SiriusXM[®] Satellite Radio.

All controlled by a cutting-edge, easy-to-operate 7" touchscreen that's well within your reach.

7" TOUCHSCREEN DISPLAY

7" touchscreen with Gorilla Glass, anti-glare, and an 800x480-pixel resolution standard on all models.

INFOTAINMENT FEATURES

SATELLITE RADIO

The radio has two receivers. One for analog AM/FM reception and one for SiriusXM[®] Satellite Radio. The radio can be operated via the buttons on the optional multifunctional steering wheel.

HEAD UNIT WITH NAVIGATION (OPT.)

Same as the standard head unit but comes with an additional navigation system and voice command, when properly equipped.

APPLE CARPLAY[®]/ ANDROID[™]AUTO²⁴

The radio supports Apple CarPlay[®] or Android[™] Auto², connected via USB cable. Mobile phones can be started with the voice command "Hey Siri" or "OK Google." The voice control can be activated directly with a button on the radio or with the optionally available multifunction steering wheel.

BLUETOOTH[®]

Bluetooth[®] connects to all your mobile devices and allows for a convenient hands-free driving experience.

USB PORTS

Two USB ports allow for connecting of external media devices, such as USB sticks or mobile phones, to the radio. The media content on the external device can be played once it is connected and the right source chosen in the radio menu.

Mercedes *me* connect

MERCEDES ME CONNECT¹⁴

*Mercedes me connect*¹⁴ is the digital extension of your van. Whether you're getting customer support or simply checking your fuel level, *Mercedes me connect*¹⁴ is here to make life easier.

BENEFITS AT A GLANCE:

- *Mercedes me connect*¹⁴ provides a quick snapshot of your mileage, fuel level, tire pressure¹⁶, fluids, and more. Plus, you can see your vehicle's location, and lock or unlock the doors¹⁵ at the touch of a button.
- Enjoy maintenance and support with a personal touch. From maintaining your vehicle to receiving help in the event of an accident, *Mercedes me connect*¹⁴ can help provide an additional layer of comfort and safety¹⁸.
- The Mercedes me connect App¹⁷ provides an overview of your vehicle by housing your remote access services. Download the app today and take full advantage of your Mercedes me connect¹⁸ services. Available on the App Store and on Google Play.

For more information, visit our website at www.mbvans.com/en/connectivity

Optionally available on Metris for both personal and business use, *Mercedes me connect*¹⁴ ensures that you remain connected to your van at all times, and from anywhere¹⁸ Add an additional layer of safety, comfort, and efficiency with *Mercedes me connect*¹⁴.

CONNECTIVITY SOLUTIONS FOR YOUR VEHICLE¹⁴:

MERCEDES ME CONNECT APP¹⁷

- the direct line to the driver.
- The driver can easily access valuable • *Mercedes me connect*¹⁴ provides vehicle-related information a comprehensive overview of your personal, as well as Remote lock-unlock feature makes business use vehicles in the work more efficient¹⁵ Mercedes me connect App¹⁷ Mercedes me connect service and user management for business use are offered in the Mercedes me connect¹⁴ Portal.

BENEFITS AT A GLANCE

FOR BUSINESS USE

- Reduce your workload by taking advantage of online software updates²⁵
- Enhance your efficiency and transparency to better benefit your company with the most up to date and important information about your van right in the palm of your hands^{14,18}
- · Improve predictability for service needs with automated monitoring features
- Stay up to date with remote services and real-time information^{15,18}

MERCEDES ME CONNECT

INTERFACES TO MANAGE YOUR VEHICLES REMOTELY.

COMMUNICATION MODULE¹⁸

- optional in every new Metris.
- This is the central point of contact that ensures the broadest range of connectivity, quickly transmitting data with the installed 4G LTE SIM card. The Communication Module is optionally available for the Metris.

FOR PERSONAL USE

- Add an additional layer of safety by staying connected with our Customer Assistance Center in case of an emergency¹³ or a breakdown²⁰
- Keep an eye on your van's location status when parked by using the Mercedes me connect App¹⁷
- anywhere and everywhere^{14,18}
- Easily lock/unlock the doors remotely to stay reassured about the lock status of your van15

For registration of a *Mercedes me connect*¹⁴ business account, please reach out to your preferred dealer.

For registration of a *Mercedes me connect*¹⁴ private account, please use the *Mercedes me connect* App¹⁷, reach out to your dealer, or the Customer Assistance Center.

For any questions about *Mercedes me connect*¹⁴, please contact the Customer Assistance Center, available 24/7 at:

1-800-367-6372 or me-connect.usa@cac.mercedes-benz.com

CONNECTIVITY

If you can imagine it, we can make it happen.

You have a concept in mind – let a Mercedes-Benz Vans ExpertUpfitter build it for you. Our job is to customize a van that is ready to fit your ultimate upfitting needs. The "right size" concept of the Metris is a blank canvas on which you can create a design to meet your specific needs. Whether it's a simple work van interior, a refrigerated farm-totable van, a wheelchair-accessible van, or the Metris Getaway, an iconic pop-up camper that combines adventurous spirit with the ease and use of an everyday people-mover. Whichever you choose, Mercedes-Benz Vans will make you mobile and take your business to new places.

Qualified Upfitters adhere to the Upfitting Guidelines to become part of the Mercedes-Benz Vans ExpertUpfitter network. These Upfitters are committed to the highest engineering standards and levels of customer satisfaction. Working with an ExpertUpfitter gives you the flexibility to be creative and the assurance that Mercedes-Benz Vans is here to support your ideas.

Find your ExpertUpfitter today at www.upfitterportal.com/en-us/upfitters/locator

KNAPHEIDE **SINCE 1848**

EXPERTUPFITTER

A turnkey route to productivity.

You're the expert in your trade, and your van is the tool with which to get the job done. ExpertSOLUTIONS¹⁹ allows you to quickly configure your van and order directly via your Mercedes-Benz Vans dealer to get you exactly the van you want right when you need it, so you can concentrate on finishing the job.

ExpertSOLUTIONS¹⁹ providers Auto Truck, Knapheide, and Driverge bring you a portfolio of turnkey solutions for your vocation – anything from Sortimo or Ranger shelving to refrigeration or even transportation of people at a preferred price. These preconfigured solutions from industry-leading manufacturers are customized to fit your Mercedes-Benz Van. The ordering process is streamlined, and installation is simple: all ExpertSOLUTIONS¹⁹ can be fitted directly as Ship-Thru, ensuring seamless integration, quick delivery, and consistent quality.

For more details and to configure your upfit, visit www.mbvans.com/en/upfitting

EXPERTSOLUTIONS

Taking care of you, so you can take care of business.

VanCARE is a promise to our customers to deliver genuine parts, superior service, and unparalleled commitment to getting you back on the road as quickly as possible. We know that for you it isn't a van - it's a tool you need to make a living.

ServiceCARE – Service Solutions Built For You

Whether it's a maintenance service, unexpected warranty work, or now a wear and tear repair, our ServiceCARE products are customized solutions for you. You can now focus on your business with your vehicles always in top shape, minimizing your downtime and maximizing your financial cost control.

Complete The all-inclusive service package. Complete

If you require comprehensive additional protection for your van, look no further than our Complete product. This package covers all workshop work, including wear and tear repairs. The vehicle is ready for action when you need it, and you keep costs safely under control.

Extended Limited Warranty (ELW) More warranty. More certainty.

The Extended Limited Warranty product offers you greater coverage for mechanical, electrical, and electronic components. It protects you against unforeseen repair costs and, without any deductibles, you get the benefit of predictable and attractive conditions.

Keeping your van in top shape.

Regular and accurate checking of the most important vehicle parts and functions ensures that your van continues to deliver outstanding performance and reliability. Maintenance prevents unnecessary repair costs and keeps downtime minimal.
